

Airway Workshop for Doctors NO Anesthesiologists

General objectives:

The objective is to perform an update in the managing of advanced adult and pediatric airways. The workshop also aims to teach new devices and new techniques in the management of the airway.

Specific objectives:

Once the workshop ends, the participant will be able to perform the correct management of the airway, acquire the ability to implement the new airway algorithms, as well as acquire new skills in the attainment of a difficult airway.
